CATALOGUE
OF
MEMBERS OF THE MEDICAL PROFESSION
IN THE
STATE OF NEW YORK,

Showing their Vote on the Codes of Ethics.

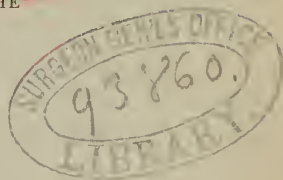

CORRECTED EDITION.

PUBLISHED BY THE CENTRAL ORGANIZATION OF THE NEW YORK
STATE MEDICAL ASSOCIATION TO UPHOLD THE
NATIONAL CODE OF ETHICS.

NEW YORK:

ANGELL'S PRINTING OFFICE, 354 FOURTH AVENUE.

1884.

W

AN6
N45C
188A

THIS catalogue contains the names of about five thousand members of the profession to whom various circulars of inquiry relating to the code have been addressed. In the majority of instances direct replies to the inquiries have been received; in many the information has been obtained from published lists and from the Secretaries of County Societies and others, while in the rest no answer has been received.

The classification is as follows: National Code, New Code, No Code, Unclassified and Uncommitted. The Uncommitted have not been heard from. The Unclassified have responded to oral or written inquiry, but have not signified exactly where they stand; that is to say, their answers do not entitle them to be included under any one of the first three headings. Some of those gentlemen say that although not in favor of the National Code, they cannot fully subscribe to the New or No Code, some are against the New and No Code, but cannot fully subscribe to the National Code, which they think should be modified (in what particular they do not say,) and others are opposed to the National, to the New, and to the resolutions commonly called No Code, others still are for the "New or No Code," while a few simply assert that they are "not New Code men." To make a separate heading for each of these classes, and for such others as might crop out, would be of no practical utility.

The Central Organization of the New York State Medical Association to uphold the National Code of Ethics, desiring to know the whole truth concerning the attitude of the Profession in respect to the ethical controversy, issued the circular on page 1 of the proof of this catalogue, a copy of which was sent to every one whose name and address appeared therein, as a fair and equitable method of ascertaining the will of the entire profession in the State of New York.

The question to be solved was whether the profession wished to retain its allegiance to the American Medical Association or to disfranchise itself therefrom by sustaining the new code or by abrogating all codes of ethics.

The annexed figures represent the vote of the whole state to date :

In the subjoined pages are the names of these 5,002 physicians, arranged by county and classified as above indicated.

The authority for such classification is derived from personal canvass by the Secretaries of some of the County Societies and by others, from inquiry by correspondence, and from examination of the printed lists of the "new code" party.

The Central Organization will be glad to hear from those who are still uncommitted.

Communications may be directed as before.
